Cornerstone Christian Academy

*Mission Statement*

Cornerstone Christian Academy (CCA) believes that the primary responsibility for the education and discipline of children rests in the hands of the parents.

Therefore, we seek to work closely with the Christian home to inculcate students with standards for life and learning that are consistent with the Bible and which result in Christ-like character. This mission cannot be accomplished by the School alone; however, it can be done if there is harmony between the goals of the School and those of the home. It is not the goal of the school to replace home teachings of values or to solve academic or behavioral problems.

At CCA, we hope to minister to the intellectual, spiritual, and social needs of all students so each may reach his or her individual potential. We are not a "fix-it" school, meaning that it is not our intention to enroll students with academic or behavioral disabilities in order to "fix" the situation. However, no child will be prevented from applying or being enrolled due to a disability or lack of success in public education.

CCA was founded upon the concept that we, as people, are part of the creation of God, that God loved us so much that he gave His only Begotten Son, Jesus, to redeem us from our sins, and he gave us His Holy Word for our instruction.

Therefore, we accept the King James Bible as our rule of faith, our guide for daily living, and our standard for discerning right from wrong.

CCA seeks to promote an atmosphere that reflects basic scriptural principles. All faculty and staff will conduct themselves in a manner which displays honesty, courtesy, reverence, dependability, cleanliness, trustworthiness, and respect, whereby setting the example for all students to follow.
